## Task 1 Describing changes

1 Match the photos a—c to the comments by three people talking about the town where they grew up.

#### Dave

I remember there wasn't much to do here when I was growing up. My friends and I used to just hang around in the park, getting into trouble. These days there's much more here for young people. For instance, the council opened the ice rink, the leisure centre and the skate park last year. I wish I'd had things like that to keep me entertained.

#### Sandra

One of the things I used to really like about this area was the peace and quiet. It was so safe for us as kids. We could play in the streets or in the nearby woods and fields. They built a bypass and an industrial estate a few years ago and there's been a lot more traffic and development since. I don't feel it's safe for my children and I'd like to move away.

#### Tom

Well, you can't stand in the way of change, I suppose. Yes, people look at the town now with lots of shiny tower blocks and say it's not as pretty or peaceful as it was in the past. Even so, there are more jobs and opportunities now than there were when I was a teenager.

- **a** For each speaker, do they think things were better or worse when they were young? Why?
- **b** What changes have occurred in the place you come from? Do you think they are positive or negative changes?
- c How could you express the phrases in italics in a more formal way?
- **d** Imagine you are a young person moving to a new town. Which facilities in the list below would be important to you?

golf course ■ skate park ■ theatre ■ railway station ■ concert hall ■ gallery stadium ■ ice rink ■ park ■ college ■ airport

- 3 The maps below show changes that took place in Youngsville in New Zealand over a 20-year period from 1990 to 2010. Answer the following questions:
  - a What is the most noticeable difference between the two maps?
  - b Was the town more or less residential in 2010 compared to 1990?
  - c Were there more or fewer trees in 2010?
  - d Were the changes dramatic or slight over the 20-year period?
  - e What were the two biggest changes north of the river?
  - f What happened to the houses and trees along the railway line south of the river?

3	a	addition	b	contrast	c	result
4	a	contrast	b	addition	c	example
5	a	result	b	contrast	c	reason
6	a	example	b	reason	c	conclusion

8 Read the statements below and in each case contradict them. Begin by using one of the following expressions in the box.

Nevertheless, I feel ... ■ However, I think ... ■ Personally, I believe ...

- a Many feel that young people today have much more influence in the world than past generations.
